

GreenCart - Software Flowcharts & System Architecture

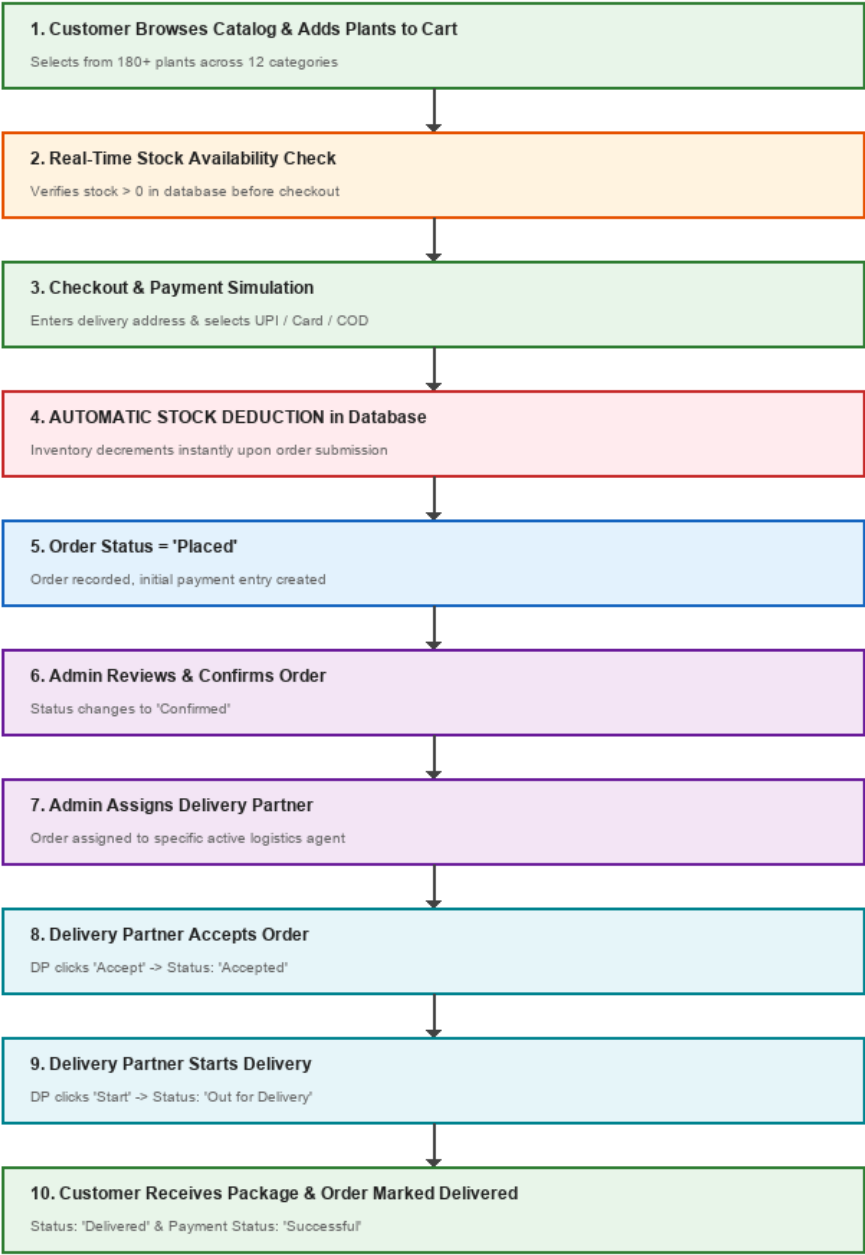

Project Done By Shamitha

1. 3-Tier System Block Diagram

2. End-to-End Order Lifecycle & Live Tracking Flowchart

GreenCart - End-to-End Order Lifecycle Flowchart

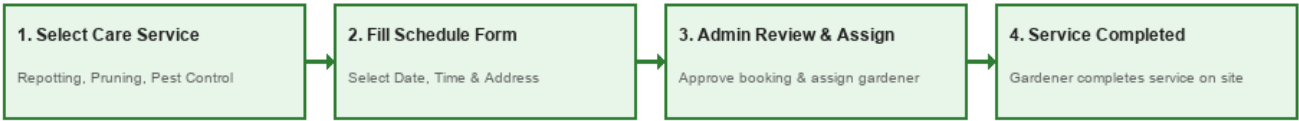

LIVE AJAX ORDER TRACKING ENGINE:

Throughout Steps 5 to 10, the Customer Tracking Page executes asynchronous background AJAX requests to /api/order-status/<id>, updating the live progress bar instantly without full page reloads.

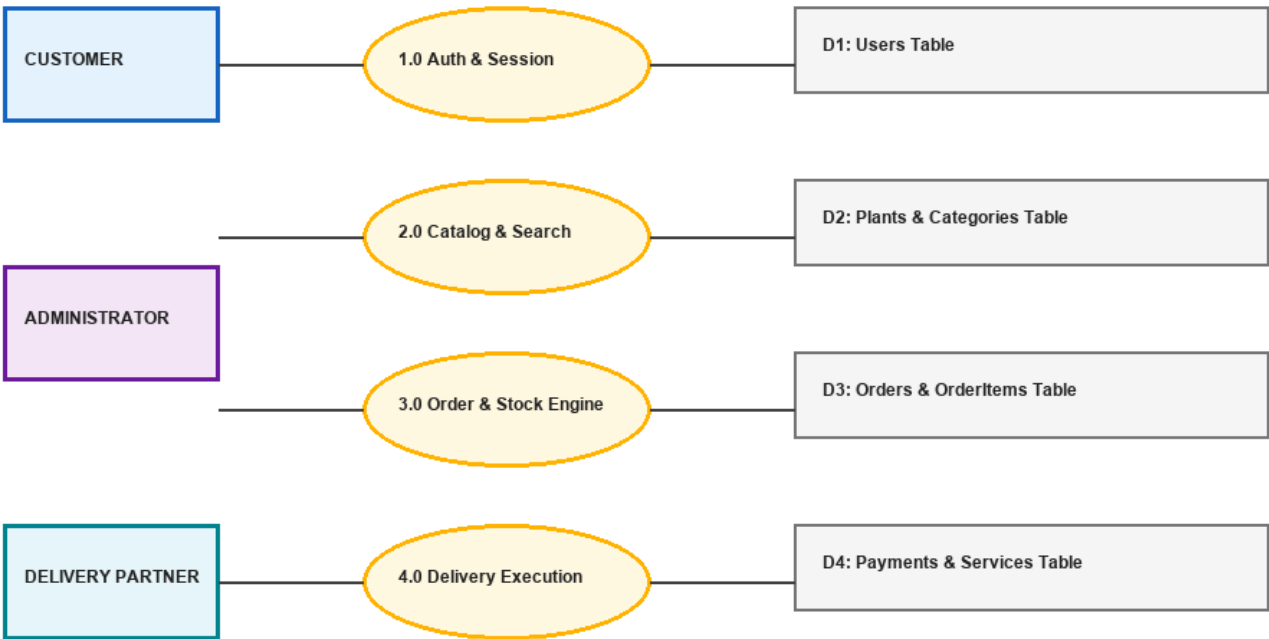

3. Plant Services Booking & Data Flow Diagram (DFD Level 1)

GreenCart - Plant Services Booking & DFD Flowchart

A. Plant Services Booking Workflow

B. Data Flow Diagram (DFD Level 1 Architecture)

4. Complete UML Use Case Diagram (Actors & System Boundary)

GreenCart - UML Use Case Diagram
